***** Rabies Notice *****
Lipscomb County

ANIMAL: Calf

POSITIVE RABIES REPORT DATE: October 7, 2022

LOCATION: North Lipscomb County

DESCRIPTION: On 9/26/2022, a woman noticed her calf having difficulty drinking, chewing, and swallowing. For the next 3 days, the same issues continued as she tried feeding it. She took it to a vet. The calf was assessed, diagnosed with pneumonia, treated, and returned to the woman for continued observation. It died the following day and was submitted for testing. It was positive for rabies.

HUMAN EXPOSURES: 7

ANIMAL EXPOSURES: 8
