

2025 LIPSCOMB COUNTY HAZARD MITIGATION PLAN UPDATE

Our community's safety is our top priority, and we are committed to reducing the risks of natural hazards. To do this, we need your input!

WHAT IS A HAZARD MITIGATION PLAN?

A Hazard Mitigation Plan is a comprehensive strategy to identify and reduce risks from hazards such as wildfires, tornadoes, severe winter storms, and several other disasters. By updating this plan, we aim to protect our homes, businesses, and infrastructure, ensuring a safer future for everyone.

JOIN US FOR COMMUNITY MEETINGS

Community involvement is a key component of the planning process. Your perspective can help us create a plan that better reflects the needs and concerns of our residents.

We invite you to attend one of our upcoming meetings to learn more about the plan and share your thoughts. Your participation is valuable in helping us enhance our preparedness and response efforts.

COMMUNITY SURVEY

Please complete our online survey

This information will inform the planning team on community preparedness and help prioritize mitigation action items for future consideration.
